Titanic Victims.

ANY WAITERS DISAPPOINTED

Fifty-seven of the Identified Bodies
Returned to Sea Owing to Decomposed Condition — One Hundred and Ninety Unloaded and Quickly Taken in Charge by Undertakers. Photographers Barred From Dock by Soldiers.

Halifax, N. S., May 1.—As the Mackay-Bennett, bearing the bodies of 190 victims of the Titanic disaster, approached her moorings, the church and fire bells began their solemn tolling. Not more than a score of people saw the bodies carried off the ship to the pier by half-headed sailors, who rapidly and silently transferred the bodies to the big squad of undertakers. In less than five minutes after the first body was landed the initial hearse in a string of 20 started off for the extemporized morgue, the sentries at the gate for three long hours saluting with dreary monotony while the death carriages passed out of the dockyard to climb the steep streets.

Bodies of 190 victims were brought back, 57 of those identified being returned to the sea, making a total of 143 recovered bodies that could not be brought back owing to the advanced stage of decomposition in which they were found.

Never before was the dockyard so carefully guarded. Soldiers were on the roofs of the departmental buildings, within the walls and on every eminence, patrolling with special instructions to stop every attempt at photographing. It is doubtful if a single picture was taken. A Halifax photographer who joined forces with three Americans who sought to take pictures was caught by Sergeant Kennedy of the Dominion police, his camera was confiscated and his film was destroyed.

Friends Go Away Satisfied.

The fact that many of the bodies that had been recovered had been re-committed to the deep is a sad disappointment for some. This was illustrated in one instance at the morgue when friends of F. Sutton of Philadelphia, who had long been here waiting for his body, had to be told that Sutton was one of the identified who had been re-committed to the waters. At the identification room in the morgue Mr. Sutton's friends had to be satisfied on being shown his personal effects.

The bodies of 10 were taken to the undertaking room of Snow very soon after landing. These had been embalmed. They were the remains of Mr. C. Long of Worcester, Mass., P. D. Mellott of Washington, E. C. Ostby, Colonel Astor, I. Strauss, C. Rosenthal, New York; W. D. Douglas, Minneapolis; W. Vanderhaef, New York; H. J. Allison, Montreal, and E. C. Crosby.

One of the earliest visitors to the morgue was Senator McKeen, who vainly sought for the remains of Hugo Ross of Winnipeg.

Though a death chamber, the Mayflower rink was a place of more cheerful haste than in any establishment in the city. Crowds of friends hung around in the observation chamber and in the rooms above, hoping against hope that still there might be found the body of a lost one, and as in the case of the friends of Sutton, having to be satisfied with a little pile of clothing instead of claiming the body they had expected.

Widener's Body Not Found.

The mystery of G. D. Widener's body was cleared up. Captain Lardner said they had found a body with the skull badly crushed and showing signs that it would not long resist decomposition. They were not able to identify it. They removed the clothing and effects and numbered the clothes to accord with the number placed on the body, which after time was consigned to the sea with lot of others which it was decided could not be retained. Afterwards they found his name on some of the things. The ship's officers then

RESULT OF SEARCH.

Halifax, May 1.—The result of the Mackay-Bennett's voyage for the recovery of bodies of Titanic victims may be summarized as follows:

- Number of Titanic dead brought to Halifax, 190.
- Number of unidentified dead brought to Halifax, 130.
- Unidentified dead in morgue, 50.
- Identified dead buried at sea, 57.
- Unidentified dead buried at sea, 59.
- Total dead buried at sea, 116.
- Total dead found by Mackay Bennett, 306.

feared that they had buried one of the bodies most sought after, but a further examination of the clothing led Captain Lardner to doubt that it was Widener's body after all. Continued examination revealed the name E. K. which they concluded was E. Keating, valet for Mr. Widener. These facts were placed before the son who has been in Halifax. He was shown the personal effects and at once he said they were not those of his father whose body, therefore, had never been found.

Five men in each boat were sent out from the ship to pick up the bodies. Decks, chairs and wood from the Titanic were found spread over 50 miles. No sign of shooting was found on any of the bodies, said Captain Lardner. Several of the bodies were dressed in evening clothes. None of those whom it was found necessary to bury were men of prominence. I believe that men who die by the sea should die by it. It is the most fitting death that a sailor could receive. Burial at sea is the best way, and for myself I would want no other."

"In what position in the water were the bodies found?" Captain Lardner was asked.

"Always upright, and invariably with a life preserver on," he replied. "Not one body was found without this appliance," he continued. When first taken from the water the bodies were in a good state of preservation. Often in the morguums we found them with frost and the water was cold. The discoloration that is now apparent in many of them all came after the bodies had lain on the deck for some days."

TWO DEAD IN BIG FIRE IN NEW YORK

Syracuse, N. Y., May 1.—The business part of the town of Croghan, in Lewis county, 20 miles from Utica, is practically obliterated by a fire. Twenty-nine buildings, including stores, business blocks and residences, were destroyed. 200 persons are homeless in the streets and two children are dead.

The fire started in the home of Mr. and Mrs. Clement Grinnell. Mrs. Grinnell had left the house for a few moments, leaving the little ones, Mary, 3, and Merrill, 11 months, behind. When she returned the dwelling was in flames. A stiff wind was blowing and the fire spread to the house next door and thence across the street, making fast for the business section. Despite efforts of the firemen the blaze reached the business section.

FATHER OF WATERS AGAIN ON RAMPAGE

Recent Flood to Be Equated
Within Few Days.

Washington, May 1.—The record breaking flood of the Mississippi river and its tributaries has suddenly taken on a more serious aspect, following heavy rains and another rise in the creeks. Army officers who are stationed all along the Mississippi from St. Louis to New Orleans and for some distance up some of the tributaries reported to the war department that renewed damage is already developing in some of the lesser and farther destruction of property throughout the valleys is threatened. Approximately \$100,000 has been expended up to date in rescuing the refugees.

The heavy rains in the Ohio and upper Mississippi valleys during the last week have brought the water back to a high stage at Hickman, Ky., Alton, Ill., and Decatur, and rises are reported all the way down to the Gulf. The people are returning to New Madrid, Mo., and Tiptonville, Tenn., seeking shelter and the levees at Chalmette, La., have broken again.

Fright Kills Girl.

Hamilton, O., May 1.—Investigation today of the death of Ethel Baker, daughter of James Baker, led to a theory that the girl died of fright. She fell dead in the yard at her home just after a terrific clap of thunder.

Columbus, Ohio, May 1.—Next to Bryan's invasion of Ohio the presidential boom of Governor Judson Harmon yesterday received what is regarded as the worst blow in his native state.

Samuel J. Vining, of Mercer Co., Speaker of the Ohio House and chairman of the Judson Harmon Legislative Boosters Committee, yesterday announced the withdrawal of his support of the governor's presidential campaign.

He also announced that he would take the stump against Harmon and urge the election of Woodrow Wilson candidates for national delegates to the Fourth Congressional district.

Vining has arranged to campaign next week with William Jennings Bryan while the latter is in the Fourth district speaking against Harmon.

Less than a month ago Vining was made Chairman of a committee of Democratic members of the House selected to "boost" the Harmon candidacy in Ohio.

Senate Titanic Committee
Questioning J. Bruce Ismay

Photo copyright 1912, by American Press Association.

THE circumstances of the Titanic disaster are likely to be thoroughly inquired into on both sides of the Atlantic. The American investigation was begun in New York by a special United States senate committee the day after the arrival of the survivors and has been continued in Washington, while Lord Mersey, a distinguished admiral lawyer, has been appointed chairman of the British commission to take testimony regarding the wreck and its causes. Naturally very great interest attached to the testimony given in New York and Washington by J. Bruce Ismay, managing director of the White Star line, who was saved from the Titanic. Mr. Ismay (the second from the left in the photograph) testified at length before the senate committee, whose members are Senators Smith of Michigan, chairman; Perkins of California; Bonne of Oregon; Burton of Ohio; Fletcher of Florida; Simons of North Carolina and Newlands of Nevada. The Washington sessions of the committee were held in the senate office building.

HOME RULE PROPOSAL IS NOW PASSED

Only Seven Votes Cast Against
Fitzsimmons Measure.

ROSE LAW IS SAFEGUARDED

Dry Element in Constitutional Convention Force Amendment Changing Clause Relative to Police Regulation by Municipalities—Taxation Is Only Big Question Left For Discussion and Hope Expressed That Body May Adjourn This Week.

Columbus, O., May 1.—By a vote of 66 to 40, the dry forces in the constitutional convention amended the Fitzsimmons' home rule proposal in such a manner as to make it clear that the proposal confers no power upon municipalities to set aside any law unless granted by legislative authority. The drys were protecting the Rose county option law.

Section 3, over which the wets and drys fought, now reads as follows: "Municipalities shall have power to enact and enforce within their limits such local police, sanitary and other similar regulations as are not in conflict with general laws."

Some advocates of home rule after the vote pointed out that under the proposal as it now reads municipalities can only do that which the legislature by law clearly permits them to do. Under the proposal as it read before amendment, all municipalities were given the right to pass any ordinance which the legislature had not clearly denied them.

Say Principle Not Affected.

Other friends of home rule say that the principle is not affected but the amended section relates solely to the local police and sanitary powers regulating municipalities, when not in conflict with the general law.

The Fitzsimmons proposal was finally adopted by a vote of 104 to 7, the dissenters being Brattain, Campbell, Collett, Cunningham, Norris, Peters and Stewart. With the ex-

ception of counties represented by Norris and Peters, there are no cities in the counties represented by the men opposed to the proposition.

Supplemental to the home rule proposal for municipalities, the Knight proposal to give school districts home rule will be adopted today, leaving the convention only taxation as the big issue before it. Quick action by the convention on the home rule proposition justified the hope that the organic lawmakers may finish their work this week.

Steel Trust Dividends Are Not Earned

Steel Corporation For First Quarter Is \$96,000,000.

New York, May 1.—That the United States Steel corporation failed to earn its dividends on the preferred and common shares for the first three months of this year by more than \$96,000,000 was disclosed at the regular quarterly meeting of the directors. Earnings, after charging interest on subsidiary bonds, amounted to only \$7,826,913. After making the usual allowance for depreciation and other regular fixed charges, including the sinking fund, net earnings were reduced to \$12,108,415.

Young Embezzler Pleads Guilty.
Cleveland, O., May 1.—John C. Jergens, indicted for misappropriating funds of the Norcross company of Cleveland and Worcester, Mass., when working as a \$50-a-month clerk, pleaded guilty to embezzling \$1,100 through padding payrolls. By his plea Jergens avoids trial on the indictments in which he is charged with embezzling \$49,000.

Many Old Structures Escape, But Must Be Covered With Sheet Steel---Deputy Fire Marshal Miller Busy.

The most sweeping condemnation of buildings in the history of the city was completed Wednesday afternoon by Deputy State Fire Marshal Chas Miller, working under the instruction of State Fire Marshal Zuber, and as a result some fifteen buildings regarded by the fire marshal as a menace to the adjoining property must either be pulled down or covered with sheet steel within the next 30 days. Practically all of the buildings must be razed within the allotted time, according to Marshal Miller, and orders will be made out and forwarded to each property owner within the next few days.

Deputy Miller was called to this city by complaints filed with the State Fire Marshal, and he stated that conditions were much worse than he expected to find them, and that in one or two instances the buildings condemned were really among the worst fire traps he had ever beheld.

and against which the marshal stated he would immediately issue orders, are the following according to Deputy Miller's statement:

The old Fayette House on South Fayette street adjoining the Gossard garage. This will be ordered torn down, together with sheds in the rear. It is owned by Mr. Geo. Inskeep.

All of the frame buildings in the rear of the "Red Onion" part of the structures belonging to P. J. Burke and part to Dan Shannon. The frame part of the building to be left standing must be covered with sheet iron.

A barn or shed in the rear of the Wolff Taylor shop, owned by Mr. H. B. Dahl, is to be removed.

A frame structure in the rear of the Busy Bee bakery, owned by Dan McLean was condemned. The old work house building on the alley back of the Engine House must go.

The Gross frame building on the alley east of the Memorial building, will be allowed to stand providing the roof and sides are covered with metal.

The Duffy frame building west of the Memorial building is to be covered with metal roof, front and rear.

The Lanum barn, near the intersection of Court and North must be covered with metal, roof and sides.

The frame structure forming a part of the Oak Notion store is to be covered with metal, both sides and roof.

A new metal roof ordered placed on the garage building owned by Chas Allen and located on the alley north of the Masonic Temple site.

A frame structure in the rear of the Arlington hotel is to be covered with metal.

The frame buildings owned by W. E. Dale on West Court street immediately east of the Empire are ordered razed to the ground.

A small frame building located in the rear of the Crone livery barn, owned by Mrs. Anna Hays, was condemned.

A large and dangerous accumulation of rubbish in a yard on North Fayette street was ordered removed.

The notice to be served will contain an order to have the buildings torn away or repaired, as the case may be, within thirty days.

From time to time a deputy will be in this city, and more structures may be ordered torn down or repaired during the summer.

The object in causing the buildings to be torn away or covered with metal is to lessen the fire dangers and secure a lower insurance rate, as the proximity of some of the old buildings to other structures is said to make the insurance rate prohibitive.

During the month of April the State Fire Marshal and his deputies condemned over 800 buildings in Ohio, and only a small portion of the state has been covered.

The law covering the condemnation of buildings, the inspector says, is very strict, and the following excepts from the Statutes show the penalty for failure or refusal to comply with the orders to be severe.

Sec. 84. Any person or persons being the owner, occupant, lessor or agent of buildings or premises who wilfully fails, neglects or refuses to comply with any order of any officer named in the last four preceding sections, shall be guilty of a misdemeanor and shall be fined not more than fifty dollars nor less than ten dollars for each day's neglect.

The child of John Parsons, Stewart, Ohio, was given up to die with a severe attack of croup and several neighbors and relatives had gathered to witness the end. Mr. Parsons says: "The doctor said baby would surely die, when we began using Foley's Honey and Tar Compound and two bottles cured the child who is alive and well today. We use Foley's Honey and Tar Compound as our only cough medicine." Blackmer & Tanquary.

FAST PACER AT FAIR GROUNDS

J. H. Thompson, of Octa, brought to the Fayette county fair grounds today his fast pacer, Faith McKinney, record 2:15.

Mr. Thompson is putting her in training and expects to enter her in some of the season's big races. The pacer has all the marks of the broad-winner and Mr. Thompson is going after the money this year.

Henry Seitz, 1919 Hillman St., Youngstown, says: "I am in better condition now than I have been for years and I attribute this to Foley Kidney Pills. I only used four bottles and they toned up my kidneys and their action is now regular and normal." Blackmer & Tanquary.

The remains will be brought to this city for interment in the Washington cemetery. They will arrive on the 4 o'clock R. & O. train Thursday and will be taken to the G. A. R. hall.

There will be short services at the G. A. R. hall at 10 a. m. Friday, followed by the burial by John M. Bell post.

Auto Ditched Horse Passes Off

Four Sabina men, T. A. Lewellen, Tot McDaniel, H. M. Morris and Arthur Hains, in Mr. Lewellen's auto, experienced an accident a few days ago which nearly resulted seriously to them.

They were coming to this city and had reached a point near the Wm. Kelso residence when they met a team attached to a wagon load of baled straw. The driver tried to hold the animals, but they backed into the machine and forced it into the ditch, throwing all four men out. All escaped with a few bruises except Mr. Hains, who struck a barbed wire fence and was painfully cut about the legs and arms. Mr. Lewellen was struck by two bales of hay, but was not seriously hurt.

In the meantime the team had gotten beyond control and ran away, going for a considerable distance before they were stopped.

The Court House Wiring Condemned

Inspector George W. Bell, who was in this city a short time ago inspecting the electric wiring of some of the buildings, condemned the wiring in the court house as being unsafe and below the standard.

While no order has yet been received in the city, information was given out from the State Fire Mar-

shal's office, and the order against the wiring will probably be received within the next few days.

Ditch Granted

The McFarland joint county ditch was granted at a meeting of the Fayette and Madison county commissioners in this city Tuesday, and the engineer ordered to survey the ditch and report on May 16th. The ditch is a large one.

The wedding of Miss Marie Buttles daughter of Mr. and Mrs. Lucian D. Buttles, of Columbus, and Mr. James Cowden Foster, Jr., Tuesday noon at the Broad Street Presbyterian church is of interest to friends and acquaintances of the bride in this city.

Rev. Dr. S. S. Palmer conducted the service in the presence of 400 relatives and friends.

The bride wore a gown of ivory satin, covered with chantilly lace and the long tulle veil which fell to the hem of her gown was garlanded with orange blossoms.

Roses and lilies of the valley made up her bouquet.

She wore a necklace with diamond and pearl pendant, a gift from the bridegroom.

Miss Carrie Lee Chamberlain of Washington, D. C., daughter of the United States senator from Oregon who was maid of honor, was in blue messaline satin, with over-dress of marquisette.

A small bouquet of tulips of the same shade as the gown was a picturesquely pretty addition.

She carried pink Kilarney roses.

Miss Marie Witman of Philadelphia, Pa., formerly of Columbus, and Miss Josephine Briggs were bridesmaids.

Miss Witman was in apple green and Miss Briggs in rose pink.

Their gowns were made of messaline, with quaint coat effect.

and both wore little caps and carried arm bouquets of marguerites.

After the service at the church Mr. and Mrs. Buttles entertained 100 guests at their home. There, as in the church, were decorations of spring flowers and palms.

Mr. Foster, who is an Ohio State university graduate and formerly lived at Higby, is engaged in business in Calgary, Alberta, Canada, and he will take his bride to Calgary to live.

He is a member of the Phi Kappa Psi Fraternity.

Mrs. Foster was graduated from the Columbus School for Girls and attended the National Park seminary at Washington, D. C.

Mr. George Bryan gave pleasurable entertainment to the B. C. B. boys, Class No. 6, and their girl friends in the dining room of Grace church Tuesday night.

Games, a jolly good time and a delicious collation combined to make the evening pass all too swiftly.

Mr. Bryan is a prince of entertainers and was ably assisted by Miss Daisy Cockerill and Misses Mabel and Ethel Calvert.

ENJOYABLE EVENT

One of the most enjoyable events of the season was the musical and kensington given by the ladies of the W. H. M. S. of Grace church yesterday. The hospitable home of Mrs. C. E. Lloyd was thrown open for the occasion and the assisting hostesses were Mrs. Ed Pine, Mrs. W. H. Dial, Mrs. John Durant and Miss Mame Adams. More than 50 women responded to the invitation.

The program consisted mostly of pianola music, played by Mrs. Lloyd, assisted by Mrs. Orma Brown, and was a rare treat to all. Miss Jane Saxton gave a very pretty reading. The afternoon was a most delightful one.

Mr. A. P. Lynch, of the Cherry hotel, returned Tuesday evening from a trip down the east coast of Florida to Miami. While on his trip Mr. Lynch purchased a fine orange and grape fruit grove and while there saw gathered from it 200 boxes of the fruit. Next season Mr. Lynch expects to ship a carload of oranges and grape fruit here and have the fruit put in cold storage for his own use.

Mr. and Mrs. Charles Buttles and little daughter, Nancy, came in from Kansas City, Mo., to attend the wedding of Mr. Buttles' sister, Miss Marie Buttles, and Mr. James Cowden Foster, Jr., at the Broad Street Presbyterian church in Columbus last night, and to visit Mrs. Buttles' parents, Mr. and Mrs. O. D. Smith, of this city. They came down from Columbus this afternoon.

Eight couples assembled and showered Mr. Marchant with congratulations, to which, although entirely surprised, he made happy response.

A delicious course supper was served and music enjoyed with other social features.

BIRTHDAY SURPRISE.

Mr. O. D. Marchant was given a delightful birthday surprise Tuesday night in honor of his forty-fifth birthday.

Eight couples assembled and showered Mr. Marchant with congratulations, to which, although entirely surprised, he made happy response.

A delicious course supper was served and music enjoyed with other social features.

Mr. O. H. Robbins is a business visitor in Frankfort today.

Mr. Earl Ayers, of Indianapolis, Ind., is visiting his mother, Mrs. Henry Limes.

Miss Gertrude Channell was in Columbus last night to see Sothern and Marlow in Romeo and Juliet.

Mr. Harry Couch is home from Pittsburgh, Pa., visiting his father, Mr. John Couch, at Bloomingburg.

Mr. Elmer Klever, who sustained such serious injuries on Monday, is improving, and by the exercise of pure grit, walked to his office today.

Mrs. Will Eyre left today for Dayton to join her husband to make the "Gem City" their future home. Many friends regret their departure.

Miss Frances Merriweather was the guest of Miss Hazel Post on the Rock Bridge road last night to attend the Sugar Grove silver medal contest.

Mrs. Myra Harvont went to Cleveland this morning to attend the commencement at St. Ann's hospital, of which hospital Mrs. Harvont is a graduate.

Mr. J. H. Anderson has sold his handsome new home, completed but a short time ago, on Market street, to Mrs. John S. Parrett, south of town. Mrs. Parrett expects to move from her beautiful country home to town a little later.

Show Wintered Here Commences Season Friday

Hill and Fournoy Wild West Show and Mexican Bull Fight Will Be Here Two Days Before Taking Road for the Season.

The Hill and Fournoy Wild West Show and Bull Fight, which closed the season here last fall at the Washington Fall fair, will once more appear before the show loving people of Washington before they leave for the summer.

This show wintered their stock on the Joe Hoppes farm near Eber where they have been well taken care of and all of the stock is in fine condition. Wild West stunts of the most thrilling nature are promised.

The company of expert riders will arrive here Wednesday from Oklahoma where they have been wintering on the ranch.

The show will be here on Friday and Saturday, May 3 and 4, and will be located on the Ed Pfeifer lot near the Sales Pavilion, and the special price of 10¢ and 25¢ will be charged while showing here, two performances being given each of the two days.

Next Monday the show will leave for Steubenville for the week. They are booked in some of the best parks in the east, opening a six weeks' engagement in Luna park, Cleveland, on Decoration day. Later they will be at Glenmont park for four weeks. Next winter the show will play 32 weeks in the New York Hippodrome theater. This is said to be the largest play house in the world.

The show is clean, sensational, exciting and in all ways a strictly up-to-the-minute wild west show.

"A Lovely Girl—But—

Why Don't Someone Tell Her About That Dreadful Odor of Perspiration?"

Why don't some friend tell her to use Nico—the deodorant Toilet Powder? It's easy and simple.

For while her friends suffered in silence, and then began regularly to shun her, for there is something in an offensive smell that will not only break up friendships. It will break up love.

Nico (pronounced Ny-ko) is the only wonderful preparation only recently discovered. It positively is the only thing known that absolutely does away with all offensive body odors. Sprinkled in the arm pits, on the feet or other portions of the body, it destroys every bit of odor immediately, and replaces it with a delicate, cleanly fragrance. The body smells as sweet and fresh as can be, and Nico makes one feel like a thoroughbred from head to foot. There is nothing in the world like Nico.

If you are a woman you need Nico.

If you are a man you want Nico.

If you are a baby you are grateful for Nico.

If you are an old person you bless Nico.

BACK TO WATER.

A number of years ago the people swung away from the "primitive" water power.

The advent of the steam engines soon alienated man's affection for his first powerful ally among nature's forces—water. Later electricity displaced the steam engines, but fickle man is now turning again to his first associate, water. The perfecting of new ideas in water power machinery have enabled man to see again in the harnessing of nature's greatest and most reliable force, the means of cheaper and more steady power.

From the old fashioned quiet mill races which in its day and age was the acme of achievement, when man by his genius, detoured a peaceful stream off to one side of the raging torrent and allowed it to trickle gently over the wheel to harnessing the avalanche of water which plunges over Niagara, is a long distance, but man has traversed that long journey and in the meantime has tried steam and electricity as motive power.

Now he is back once more to the water power, if not to the water wagon, and from all sections of the nation come reports of marvelous achievements in the line of locating, harnessing and converting to the use of man the water power which has been permitted to go to waste for years.

With the rapid development of the United States from an agricultural to an industrial country the increased consumption of coal for fuel has been enormous, and at the present rate the extinction of our known coal deposits will be a question of a comparatively few years. With the passing of coal the water power of the country will be more and more of value.

It has been estimated by the Geological Survey that the available water power of the United States at minimum flow is approximately 36,000,000 horse power, and that this can be increased five or six times by suitable storage facilities.

It is strange how changing conditions will compel the workers of the human family to adopt new means to attain their object. The strangest of all though is that bountiful nature has always ready a substitute for that which long adapted to the use of man becomes for some reason or other no longer available.

If nature does not open up to us a new mine of that which might be substituted for coal or gas or oil when the store of these force producing substances show signs of becoming exhausted, she does the next best thing and gives us the clearer understanding which enables us to utilize in a new way that which long years ago had been cast aside as useless.

Women Dress Most Charmingly Who Study Themselves

BY ROBERT HENRI, Artist

THAT dress is truly beautiful which reveals and accentuates all the graces of the individual.

Please note that I say graces and not grace. The latter is merely one beauty. "Graces" is the word to use for the combined PHYSICAL, MENTAL AND SPIRITUAL BEAUTIES of each person, and all of these are brought out by the right sort of costume.

A WOMAN SHOULD STUDY HERSELF AS A PAINTER STUDIES THE SCENE OR FIGURE WHICH HE IS ABOUT TO TRANSFER TO CANVAS.

She should note the color of her hair and eyes, the texture of her skin, the lines of her figure, and then she should choose those fabrics, shades and forms of dress which reveal and EMPHASIZE ALL HER GRACES.

To secure a savings bank account and to acquire property on a small income are all well and good provided the price paid is not the loss of all the things that make life really worth living. I would rather give my older son a dollar that he may see or hear something which will broaden or deepen his intellect than a nickel for a moving picture show. The moving picture show is all right and splendidly instructive sometimes, but it is not the cheapness of the entertainment that appeals to my discriminating taste.

I would rather pay \$20 or \$30 a month rent in a neighborhood that saves my individuality than own a home in a row of soulless cottages.

I may say that my own husband earns about \$18 a week and there are five in my family.

I know a woman who toiled and saved until she now owns a fine home. She also has a resulting semi-invalidism. She never had time to read spiritual things. They did not interest her. She had to have property—a home for her old age. Today she is a most unhappy, discontented woman. She cannot read, as it tires or bores her. She knows no spiritual uplift; no peace that comes only from within. Books are an unknown quantity and she is a mental beggar.

I have not money saved nor property, but I have the things worth while, which will sustain me when I'm old.

IN MASSACHUSETTS FIGHT THE PRIMARY VOTE FAVERS PRESIDENT TAFT

President Has Plurality of 2,800 Over Roosevelt.

ALSO MOST OF THE DELEGATES

Has Probably Lost Big Eight Headed by Senator Crane Through Confusion in Marking Ballots—Speaker Clark Distances Wilson For Democratic Honor—Senator LaFollette Did Not Even Make a Noise—Results In Several Districts In Doubt.

BOSTON, May 1.—President Taft appears on the face of the returns to have been the popular choice of the Republicans of Massachusetts for presidential candidate in the coming campaign, his majority over Colonel Roosevelt being estimated at from 2,500 to 2,800. Owing to the presence on the ballot of nine names for delegates-at-large, all pledged to Taft, the regular slate, headed by Senator W. Murray Crane and former Governor John L. Bates, appears to have been defeated, but the eight alternates are probably successful. How the district delegates stand is problematical.

The Roosevelt victory in the matter of delegates-at-large was due to the name of Frank Seiberlich being sandwiched in on the ballot between group one, consisting of eight names pledged to Roosevelt as delegates-at-large, and group three, comprising eight names pledged to Taft. Seiberlich was also pledged to Taft but his name on the ballot caused endless confusion and substantial loss for the Taft delegates. In nearly all the voting places heard from Taft delegates' ballots were invalidated by voters marking for Seiberlich as well as for the regular eight candidates.

In each case the Taft preferential vote was counted, but the vote for his delegation was thrown out. The voters, in their haste, neglected to heed the instructions to vote for eight and marked every name pledged to Taft.

When the returns are in from the congressional districts, it is believed they will show that Taft has two-thirds of the delegates.

Champ Clark won in a canter over Wilson, and LaFollette was scarcely heard from. The speaker of the house beat the governor of New Jersey by \$300 in Boston, but in the west of the state it was not quite as bad. The vote was light all over the state, probably not more than 40 or 45 per cent of the total strength of the state being cast.

SEES TAFT'S FINISH

Dixon Makes Sweeping Claim For Roosevelt's Candidacy.

Washington, May 1.—Massachusetts was claimed for Roosevelt by 7,000 majority at the Roosevelt headquarters here this morning. Senator Dixon, Colonel Roosevelt's campaign manager, issued the following statement:

"The result in Massachusetts settled the Taft candidacy beyond and to the exclusion of every reasonable doubt. The revolt of the rank and file of the Republican party against Taft's leadership is overwhelming and complete. Roosevelt will be nominated at Chicago on the first ballot and will be elected in November by the biggest majority ever given a presidential candidate."

Commenting upon the legislation,

The National Association for the Study and prevention of Tuberculosis says that this is the most ad-

vanced legislation of this kind that has ever been enacted in this country by any state legislature.

The only other state which provides for compulsory segregation of dangerous cases of tuberculosis is Maryland.

The only city in the United States which has adopted a special ordinance providing for compulsory removal of dangerous tuberculosis cases, is San Francisco.

A few other cities, such as New York, exercise this power under certain provisions of their sanitary codes, but no other city has any special ordinance on the subject.

The National Association declares that a consumptive who exercises sufficient precautions in the disposal of his sputum need not be a menace to anyone.

The association goes further, however, in saying that when a consumptive refuses to adopt the proper precautions necessary to prevent the spread of his disease he should be forcibly isolated and segregated in a special hospital provided for that purpose.

Advanced Legislation

Treatment of Consumption

What is designated by The National Association for the Study and Prevention of Tuberculosis, in a statement issued today, as the most advanced legislation in the campaign against tuberculosis that has been enacted by any state in the United States, if not by any country in the world, is found in a bill just passed by the New Jersey Legislature and signed by the Governor.

The new law provides that tuberculosis patients who refuse to obey the regulations laid down by the State Board of Health concerning the prevention of their disease, and thus become a menace to the health of those with whom they associate, shall be compulsorily segregated by order of the courts, in institutions provided for this purpose. If such a patient refuses to obey the rules and regulations of the institution in which he is placed he may be isolated or separated from other persons and restrained from leaving the institution.

The law further provides that all counties in the State of New Jersey shall within six months from April 1st, make provision in special institutions for the care of all persons having tuberculosis in these counties. The state treasury will subsidize each county to the extent of \$3.00 a week for each person maintained in these institutions except those who are able to pay for the cost of maintenance.

Commenting upon the legislation, the National Association for the Study and prevention of Tuberculosis says that this is the most ad-

vanced legislation in the country.

BACK TO WATER.

A number of years ago the people swung away from the "primitive" water power.

The advent of the steam engines soon alienated man's affection for his first powerful ally among nature's forces—water. Later electricity displaced the steam engines, but fickle man is now turning again to his first associate, water. The perfecting of new ideas in water power machinery have enabled man to see again in the harnessing of nature's greatest and most reliable force, the means of cheaper and more steady power.

From the old fashioned quiet mill races which in its day and age was the acme of achievement, when man by his genius, detoured a peaceful stream off to one side of the raging torrent and allowed it to trickle gently over the wheel to harnessing the avalanche of water which plunges over Niagara, is a long distance, but man has traversed that long journey and in the meantime has tried steam and electricity as motive power.

Now he is back once more to the water power, if not to the water wagon, and from all sections of the nation come reports of marvelous achievements in the line of locating, harnessing and converting to the use of man the water power which has been permitted to go to waste for years.

With the rapid development of the United States from an agricultural to an industrial country the increased consumption of coal for fuel has been enormous, and at the present rate the extinction of our known coal deposits will be a question of a comparatively few years. With the passing of coal the water power of the country will be more and more of value.

It has been estimated by the Geological Survey that the available water power of the United States at minimum flow is approximately 36,000,000 horse-power, and that this can be increased five or six times by suitable storage facilities.

It is strange how changing conditions will compel the workers of the human family to adopt new means to attain their object. The strangest of all though is that bountiful nature has always ready a substitute for that which long adapted to the use of man becomes for some reason or other no longer available.

If nature does not open up to us a new mine of that which might be substituted for coal or gas or oil when the store of these force producing substances show signs of becoming exhausted, she does the next best thing and gives us the clearer understanding which enables us to utilize in a new way that which long years ago had been cast aside as useless.

Women Dress Most Charmingly Who Study Themselves

BY ROBERT HENRI, Artist

THAT dress is truly beautiful which reveals and accentuates all the graces of the individual.

Please note that I say graces and not grace. The latter is merely one beauty. "Graces" is the word to use for the combined PHYSICAL, MENTAL AND SPIRITUAL BEAUTIES of each person, and all of these are brought out by the right sort of costume.

A WOMAN SHOULD STUDY HERSELF AS A PAINTER STUDIES THE SCENE OR FIGURE WHICH HE IS ABOUT TO TRANSFER TO CANVAS.

She should note the color of her hair and eyes, the texture of her skin, the lines of her figure, and then she should choose those fabrics, shades and forms of dress which reveal and EMPHASIZE ALL HER GRACES.

To secure a savings bank account and to acquire property on a small income are all well and good provided the price paid is not the loss of all the things that make life really worth living. I would rather give my older son a dollar that he may see or hear something which will broaden or deepen his intellect than a nickel for a moving picture show. The moving picture show is all-right and splendidly instructive sometimes, but it is not the cheapness of the entertainment that appeals to my discriminating taste.

I would rather pay \$20 or \$30 a month rent in a neighborhood that saves my individuality than own a home in a row of soulless cottages.

I may say that my own husband earns about \$18 a week and there are five in my family.

I know a woman who toiled and saved until she now owns a fine home. She also has a resulting semi-invalidism. She never had time to read spiritual things. They did not interest her. She had to have property—a home for her old age. Today she is a most unhappy, discontented woman. She cannot read, as it tires or bores her. She knows no spiritual uplift; no peace that comes only from within. Books are an unknown quantity and she is a mental beggar.

I have not money saved nor property, but I have the things worth while, which will sustain me when I'm old.

Remarkable Record Of Ohio's Favorite Pacer

THE FAMOUS MAJOR MALLOW

Complete List of Races in Which the "Old Horse," Who Has Aided to Fayette's Fame, Has Participated.

"Without a doubt the little bay pacing gelding, Major Mallow, (2-93 3-4), by Box Elder, owned by Wirt H. Mallow, of Washington C. H., Ohio," says E. L. Churchill in the Enquirer, "is one of the most popular race horses that has ever been campaigned from the Buckeye State."

The Major is now 14 years old (having been foaled in 1898), was bred by his present owner, who gave the horse his training and racing experience. He has been raced for six consecutive seasons, and every campaign brought him home a big winner. Major Mallow has raced over every mile and half mile track of any importance in the Middle West country, and during his racing career his campaigns extended from Vermont to Texas. He will be campaigned again this season and is being trained by his present owner at Washington C. H.

The following list includes the complete list of races that Major Mallow participated in during his racing career:

Remarkable Record Of Ohio's Favorite Pacer

THE FAMOUS MAJOR MALLOW

Complete List of Races in Which the "Old Horse," Who Has Aided to Fayette's Fame, Has Participated.

"Without a doubt the little bay pacing gelding, Major Mallow, (2-03 3-4), by Box Elder, owned by Wirt H. Mallow, of Washington C. H., Ohio," says E. L. Churchill in the Enquirer, "is one of the most popular race horses that has ever been campaigned from the Buckeye State."

The Major is now 14 years old (having been foaled in 1898), was bred by his present owner, who gave the horse his training and racing experience. He has been raced for six consecutive seasons, and every campaign brought him home a big winner. Major Mallow has raced over every mile and half mile track of any importance in the Middle West country, and during his racing career his campaigns extended from Vermont to Texas. He will be campaigned again this season and is being trained by his present owner at Washington C. H.

The following list includes the complete list of races that Major Mallow participated in during his racing career:

Don't Be Nervous and Run-down

NEW TONIC. TONA VITA. WILL POSITIVELY RESTORE YOUR OLD VITALITY.

Nervousness, depression of spirits lack of energy, all run down, these are the chief symptoms of nervous debility, the modern affliction caused largely by the rush, hustle and worry of modern life.

If you are a sufferer from this all-too-common complaint, and cannot go to a high priced sanitarium to have rest and diet build you up, you should read carefully the following statement by C. N. Hunt, Esq., of 602 Sixth-st., Milwaukee, Wis., concerning the remarkable new tonic "Tona Vita" that has made such a great record during the past year. Mr. Hunt says: "For a number of years my wife has been a sufferer from a continuous run down, nervous condition and stomach trouble. I took her to a number of doctors, but none seemed to give her any relief. She grew constantly worse and her entire system became affected.

"She could hardly eat anything and

would say the very thought of eating made her sick. She caught one bad cold after another and was always tired and languid. She had bad headaches and attacks of dizziness.

"I got some Tona Vita a few months ago. My wife began taking the tonic that night and we were pleasantly surprised to notice an improvement after the second day. She is now like a different woman. The nervousness and depression are all gone and she eats and sleeps better than she has for years. It seems wonderful to note such a change in her. I believe 'Tona Vita' is worth its weight in gold.

If you are debilitated and run down, above all things try "Tona Vita." You will never regret it as it will build you up like magic. It is the finest preparation now on the market.

BACK TO WATER.

A number of years ago the people swung away from the "primitive" water power.

The advent of the steam engines soon alienated man's affection for his first powerful ally among nature's forces—water. Later electricity displaced the steam engines, but fickle man is now turning again to his first associate, water. The perfecting of new ideas in water power machinery have enabled man to see again in the harnessing of nature's greatest and most reliable force, the means of cheaper and more steady power.

From the old fashioned quiet mill races which in its day and age was the acme of achievement, when man by his genius, detoured a peaceful stream off to one side of the raging torrent and allowed it to trickle gently over the wheel to harnessing the avalanche of water which plunges over Niagara, is a long distance, but man has traversed that long journey and in the meantime has tried steam and electricity as motive power.

Now he is back once more to the water power, if not to the water wagon, and from all sections of the nation come reports of marvelous achievements in the line of locating, harnessing and converting to the use of man the water power which has been permitted to go to waste for years.

With the rapid development of the United States from an agricultural to an industrial country the increased consumption of coal for fuel has been enormous, and at the present rate the extinction of our known coal deposits will be a question of a comparatively few years. With the passing of coal the water power of the country will be more and more of value.

It has been estimated by the Geological Survey that the available water power of the United States at minimum flow is approximately 36,000,000 horse-power, and that this can be increased five or six times by suitable storage facilities.

It is strange how changing conditions will compel the workers of the human family to adopt new means to attain their object. The strangest of all though is that bountiful nature has always ready a substitute for that which long adapted to the use of man becomes for some reason or other no longer available.

If nature does not open up to us a new mine of that which might be substituted for coal or gas or oil when the store of these force-producing substances show signs of becoming exhausted, she does the next best thing and gives us the clearer understanding which enables us to utilize in a new way that which long years ago had been cast aside as useless.

Women Dress Most Charmingly Who Study Themselves

By ROBERT HENRI, Artist

C HAT dress is truly beautiful which reveals and accentuates all the graces of the individual.

Please note that I say graces and not grace. The latter is merely one beauty. "Graces" is the word to use for the combined PHYSICAL, MENTAL AND SPIRITUAL BEAUTIES of each person, and all of these are brought out by the right sort of costume.

A WOMAN SHOULD STUDY HERSELF AS A PAINTER STUDIES THE SCENE OR FIGURE WHICH HE IS ABOUT TO TRANSFER TO CANVAS.

She should note the color of her hair and eyes, the texture of her skin, the lines of her figure, and then she should choose those fabrics, shades and forms of dress which reveal and EMPHASIZE ALL HER GRACES.

To secure a savings bank account and to acquire property on a small income are all well and good provided the price paid is not the loss of all the things that make life really worth living. I would rather give my older son a dollar that he may see or hear something which will broaden or deepen his intellect than a nickel for a moving picture show. The moving picture show is all right and splendidly instructive sometimes, but it is not the cheapness of the entertainment that appeals to my discriminating taste.

I would rather pay \$20 or \$30 a month rent in a neighborhood that saves my individuality than own a home in a row of soulless cottages.

I may say that my own husband earns about \$18 a week and there are five in my family.

I know a woman who toiled and saved until she now owns a fine home. She also has a resulting semi-invalidism. She never had time to read spiritual things. They did not interest her. She had to have property—a home for her old age. Today she is a most unhappy, discontented woman. She cannot read, as it tires or bores her. She knows no spiritual uplift; no peace that comes only from within. Books are an unknown quantity and she is a mental beggar.

I have not money saved nor property, but I have the things worth while, which will sustain me when I'm old.

Holland Gin Turned His Head

Too much Holland gin which he claims to have appropriated from some person or persons, was the cause of E. G. Cornwell's arrest in this city Tuesday.

Cornwell, who is said to live near Bloomingburg, was badly intoxicated and spent a short time in the cooler where he became rational once more and left \$5 and the costs with His Honor as proper payment for his offense.

Cornwell stated that it was the first time he was ever drunk, and that the first time he was ever arrested.

FUNERAL OF HENRY LIMES.

The funeral of Mr. Henry Limes was held Tuesday afternoon at the residence with Rev. T. W. Locke officiating minister, and the John M. Bell Post, Riley Jacobs, P. C., conducting G. A. R. memorial services.

The house was crowded with a large representation of the old sol-

diers and friends.

Mrs. Nye Gregg, Miss Lulu Larimer and Rev. Locke sang the hymns.

There were a large number of beautiful flowers, including special designs from the G. A. R., W. R. C., Jr. Order American Mechanics, Wesley Chapel Mite Society, neighbors and friends.

The pall-bearers were all G. A. R. comrades, Milton Hyer, J. N. Rowe, J. A. Everhart, Chas. Epperson, John Daniel, H. C. Denious.

Mrs. Limes' son, Mr. Earl Ayers, of Indianapolis, Ind., was here to attend the funeral.

What is designated by The National Association for the Study and Prevention of Tuberculosis, in a statement issued today, as the most advanced legislation in the campaign against tuberculosis that has been enacted by any state in the United States which has adopted a special ordinance providing for compulsory removal of dangerous tuberculosis cases.

The new law provides that tuberculosis patients who refuse to obey the regulations laid down by the State Board of Health concerning the prevention of their disease, and thus become a menace to the health of those with whom they associate, shall be compulsorily segregated by order of the courts, in institutions provided for this purpose. If such a patient refuses to obey the rules and regulations of the institution in which he is placed he may be isolated or separated from other persons and restrained from leaving the institution.

The law further provides that all counties in the State of New Jersey shall within six months from April 1st, make provision in special institutions for the care of all persons having tuberculosis in these counties. The state treasury will subsidize each county to the extent of \$3.00 a week for each person maintained in these institutions except those who are able to pay for the cost of maintenance.

BROOKLYN GIRL WELL NOW.

When you get right down to the plain facts it is generally a very simple matter to get rid of a bronchial cough if you go at it right.

The trouble is, most people dose themselves with quiting syrups that really don't have any curative effect.

Now Vinol, our delicious cod liver and iron preparation without oil is a specific throat and lung healer—it goes to the seat of the trouble at once, stops the cough and heals the inflamed bronchial tubes.

For example, there is Miss Julia Leyendecker of Brooklyn. She says "I had a stubborn cough last spring that hung on for six weeks and made me very uneasy, so I took Vinol, as I had heard it was good for coughs. I had already tried several cough medicines without benefit, but Vinol soon stopped my cough and I now feel perfectly well."

BACK TO WATER.

A number of years ago the people swung away from the "primitive" water power.

The advent of the steam engines soon alienated man's affection for his first powerful ally among nature's forces—water. Later electricity displaced the steam engines, but bickle man is now turning again to his first associate, water. The perfecting of new ideas in water power machinery have enabled man to see again in the harnessing of nature's greatest and most reliable force, the means of cheaper and more steady power.

From the old fashioned quiet mill races which in its day and age was the acme of achievement, when man by his genius, detoured a peaceful stream off to one side of the raging torrent and allowed it to trickle gently over the wheel to harnessing the avalanche of water which plunges over Niagara, is a long distance, but man has traversed that long journey and in the meantime has tried steam and electricity as motive power.

Now he is back once more to the water power, if not to the water wagon, and from all sections of the nation come reports of marvelous achievements in the line of locating, harnessing and converting to the use of man the water power which has been permitted to go to waste for years.

With the rapid development of the United States from an agricultural to an industrial country the increased consumption of coal for fuel has been enormous, and at the present rate the extinction of our known coal deposits will be a question of a comparatively few years. With the passing of coal the water power of the country will be more and more of value.

It has been estimated by the Geological Survey that the available water power of the United States at minimum flow is approximately 36,000,000 horse power, and that this can be increased five or six times by suitable storage facilities.

It is strange how changing conditions will compel the workers of the human family to adopt new means to attain their object. The strangest of all though is that bountiful nature has always ready a substitute for that which long adapted to the use of man becomes for some reason or other no longer available.

If nature does not open up to us a new mine of that which might be substituted for coal or gas or oil when the store of these force producing substances show signs of becoming exhausted, she does the next best thing and gives us the clearer understanding which enables us to utilize in a new way that which long years ago had been cast aside as useless.

Women Dress Most Charmingly Who Study Themselves

By ROBERT HENRI, Artist

THAT dress is truly beautiful which reveals and accentuates all the graces of the individual.

Please note that I say graces and not grace. The latter is merely one beauty. "Graces" is the word to use for the combined PHYSICAL, MENTAL AND SPIRITUAL BEAUTIES of each person, and all of these are brought out by the right sort of costume.

A WOMAN SHOULD STUDY HERSELF AS A PAINTER STUDIES THE SCENE OR FIGURE WHICH HE IS ABOUT TO TRANSFER TO CANVAS.

She should note the color of her hair and eyes, the texture of her skin, the lines of her figure, and then she should choose those fabrics, shades and forms of dress which reveal and EMPHASIZE ALL HER GRACES.

ALSO MOST OF THE DELEGATES

Has Probably Lost Big Eight Headed by Senator Crane Through Confusion in Marking Ballots—Speaker Clark Distances Wilson For Democratic Honor—Senator LaFollette Did Not Even Make a Noise—Results in Several Districts in Doubt.

BOSTON, May 1.—President Taft appears on the face of the returns to have been the popular choice of the Republicans of Massachusetts, for presidential candidate in the coming campaign, his majority over Colonel Roosevelt being estimated at from 2,500 to 2,800. Owing to the presence on the ballot of nine names for delegates-at-large, all pledged to Taft, the regular slate, headed by Senator W. Murray Crane and former Governor John L. Bates, appears to have been defeated, but the eight alternates are probably successful. How the district delegates stand is problematical.

The Roosevelt victory in the matter of delegates-at-large was due to the name of Frank Seiberlich being sandwiched in on the ballot between group one, consisting of eight names pledged to Roosevelt as delegates-at-large, and group three comprising eight names pledged to Taft. Seiberlich was also pledged to Taft but his name on the ballot caused endless confusion and substantial loss for the Taft delegates. In nearly all the voting places heard from Taft delegates' ballots were invalidated by voters marking for Seiberlich as well as for the regular eight candidates. In each case the Taft preferential vote was counted, but the vote for his delegation was thrown out. The voters, in their haste, neglected to heed the instructions to vote for eight, and marked every name pledged to Taft.

When the returns are in from the congressional districts, it is believed they will show that Taft has two-thirds of the delegates.

Champ Clark won in a canter over Wilson, and LaFollette was scarcely heard from. The speaker of the house beat the governor of New Jersey by 8,500 in Boston, but in the west of the state it was not quite as bad. The vote was light all over the state, probably not more than 40 or 45 per cent of the total strength of the state being cast.

Advanced Legislation Treatment of Consumption

What is designated by The National Association for the Study and Prevention of Tuberculosis, in a statement issued today, as the most advanced legislation in the campaign against tuberculosis that has been enacted by any state in the United States, if not by any country in the world, is found in a bill just passed by the New Jersey Legislature and signed by the Governor.

The new law provides that tuberculosis patients who refuse to obey the regulations laid down by the State Board of Health concerning the prevention of their disease, and thus become a menace to the health of those with whom they associate, shall be compulsorily segregated by order of the courts, in institutions provided for this purpose. If such a patient refuses to obey the rules and regulations of the institution in which he is placed he may be isolated or separated from other persons and restrained from leaving the institution.

The law further provides that all counties in the State of New Jersey shall within six months from April 1st, make provision in special institutions for the care of all persons having tuberculosis in these counties. The state treasury will subsidize each county to the extent of \$3.00 a week for each person maintained in these institutions except those who are able to pay for the cost of maintenance.

Commenting upon the legislation, The National Association for the Study and prevention of Tuberculosis says that this is the most ad-

vanced legislation of this kind that has ever been enacted in this country by any state legislature. The only other state which provides for compulsory segregation of dangerous cases of tuberculosis, is Maryland. The only city in the United States which has adopted a special ordinance providing for compulsory removal of dangerous tuberculosis cases, is San Francisco. A few other cities, such as New York, exercise this power under certain provisions of their sanitary codes, but no other city has any special ordinance on the subject.

The National Association declares that a consumptive who exercises sufficient precautions in the disposal of his sputum need not be a menace to anyone. The association goes further, however, in saying that when a consumptive refuses to adopt the proper precautions necessary to prevent the spread of his disease he should be forcibly isolated and segregated in a special hospital provided for that purpose.

Remarkable Record Of Ohio's Favorite Pacer

THE FAMOUS MAJOR MALLOW

Complete List of Races in Which the "Old Horse," Who Has Aided to Fayette's Fame, Has Participated.

"Without a doubt the little bay pacing gelding, Major Mallow (2-03 3-4), by Box Elder, owned by Wirt H. Mallow, of Washington C. H., Ohio," says E. L. Churchill in the Enquirer, "is one of the most popular race horses that has ever been campaigned from the Buckeye State."

The Major is now 14 years old (having been foaled in 1898), was bred by his present owner, who gave the horse his training and racing experience. He has been raced for six consecutive seasons, and every campaign brought him home a big winner. Major Mallow has raced over every mile and half-mile track of any importance in the Middle West country, and during his racing career his campaigns extended from Vermont to Texas. He will be campaigned again this season and is being trained by his present owner at Washington C. H.

The following list includes the complete list of races that Major Mallow participated in during his racing career:

Don't Be Nervous and Run-down

NEW TONIC, TONA VITA, WILL POSITIVELY RESTORE YOUR OLD VITALITY.

Nervousness, depression of spirits, lack of energy, all run down, these are the chief symptoms of nervous debility, the modern affliction caused largely by the rush, hustle and worry of modern life.

If you are a sufferer from this all-too-common complaint, and cannot go to a high priced sanitarium to have rest and diet build you up, you should read carefully the following statement by C. N. Hunt, Esq., of 602 Sixth-st., Milwaukee, Wis., concerning the remarkable new tonic "Tona Vita" that has made such a great record during the past year. Mr. Hunt says: "For a number of years my wife has been a sufferer from a continuous run down, nervous condition and stomach trouble. I took her to a number of doctors, but none seemed to give her any relief. She grew constantly worse and her entire system became affected.

"She could hardly eat anything and

would say the very thought of eating made her sick. She caught one bad cold after another and was always tired and languid. She had bad headaches and attacks of dizziness.

"I got some Tona Vita a few months ago. My wife began taking the tonic that night and we were pleasantly surprised to notice an improvement after the second day. She is now like a different woman. The nervousness and depression are all gone and she eats and sleeps better than she has for years. It seems wonderful to note such a change in her. I believe "Tona Vita" is worth its weight in gold."

If you are debilitated and run down, above all things try "Tona Vita." You will never regret it as it will build you up like magic. It is the finest preparation now on the market.

Brown's Drug Store has the agency for this great medicine in Washington C. H. The price will be returned if it doesn't meet with your entire approval. The Approved Formula Co. Dayton, Ohio.

Splendid Program At Sugar Grove Silver Medal Contest

Sugar Grove M. E. church held a large audience Tuesday night, when the Sugar Grove W. C. T. U. put on one of the best silver medal oratorical contests that has ever been given in this city or in the county.

It was a program beautiful of interest and creating temperament, as well as one which provided delightful entertainment and a most enjoyable evening.

Miss Edith Moore opened with a brilliant piano solo, heartily encored, after which Rev. Creamer gave the invocation.

Interspersing the numbers given by the contestants were finely rendered quartet numbers, the singers, Mr. and Mrs. Harry Silcott, Mrs. Luther Cockerill, Mr. O. E. Hardway, a beautiful vocal solo by Mrs. Fred Coffman and pretty piano numbers by Miss Gladys Hubbard.

There were seven contestants, Miss Posey, Florence Irwin, Faye Fisher, Hazel Johnston, Hazel Poer, Lawrence Harringer and Willard Wilson.

The contestants did splendidly several of them showing such finished elocution and dramatic force that it made the decision of the judges very difficult. The speakers were generally pronounced to be as a class as talented as had ever appeared in any of the numerous medal contests of the city or county.

Miss Bass Posey, after lengthy deliberation, was awarded the medal by three-quarters of one point.

The judges were all from this city. Messrs. Austin F. Hopkins, F. B. McElwain and Harry Rankin.

During their argument Rev. Geo. Creamer made an excellent temperance address and at its close presented the medal.

The neighboring churches, Washington C. H., Stanton and Good Hope were well represented in the audience.

The Sugar Grove union will give another silver medal contest at Good Hope, May 10th.

HOUSE - CLEANING

Brings more laundry work than the average housewife, with her other cares, can attend to. Much of this work, such as woolens and delicate waists, she wants handled with extreme care and good judgement.

We are equipped to take care of this or any other work you may wish laundered, such as—

Quilts, Lace Curtains, Spreads,

and we would like to show you that we use care and judgement in handling these different kinds of goods you intrust to us.

We are not running a corn shredder, just because we use machines for doing this work, but a Modern Laundry.

THE FAMOUS MAJOR MALLOW

Complete List of Races in Which the "Old Horse," Who Has Aided to Fayette's Fame, Has Participated.

"Without a doubt the little bay pacing gelding, Major Mallow (12-63 3-4), by Box Elder, owned by Wirt H. Mallow, of Washington C. H., Ohio," says E. L. Churchill in the Enquirer, "is one of the most popular race horses that has ever been campaigned from the Buckeye State."

The Major is now 14 years old (having been foaled in 1898), was bred by his present owner, who gave the horse his training and racing experience. He has been raced for six consecutive seasons, and every campaign brought him home a big winner. Major Mallow has raced over every mile and half-mile track of any importance in the Middle West country, and during his racing career his campaigns extended from Vermont to Texas. He will be campaigned again this season and is being trained by his present owner at Washington C. H.

The following list includes the complete list of races that Major Mallow participated in during his racing career:

1906.

Canton, Ohio, July 4—1, 1, 1. Time—2:22, 2:21 1-4, 2:23 1-4. Five starters. Half-mile track. Canton, Ohio, July 7—1, 1, 1. Time 2:21 1-4, 2:19 1-4, 2:21 1-2. Five starters. Half-mile track. Don't Be Nervous and Run-down

NEW TONIC, TONA VITA, WILL POSITIVELY RESTORE YOUR OLD VITALITY.

Nervousness, depression of spirits, lack of energy, all run down, these are the chief symptoms of nervous debility, the modern affliction caused largely by the rush, hustle and worry of modern life.

If you are a sufferer from this all-too-common complaint, and cannot go to a high priced sanitarium to have rest and diet build you up, you should read carefully the following statement by C. N. Hunt, Esq., of 602 Sixth-st., Milwaukee, Wis., concerning the remarkable new tonic "Tona Vita" that has made such a great record during the past year. Mr. Hunt says: "For a number of years my wife has been a sufferer from a continuous run down, nervous condition and stomach trouble. I took her to a number of doctors, but none seemed to give her any relief. She grew constantly worse and her entire system became affected.

"She could hardly eat anything and

would say the very thought of eating made her sick. She caught one bad cold after another and was always tired and languid. She had bad headaches and attacks of dizziness.

"I got some Tona Vita a few months ago. My wife began taking the tonic that night and we were pleasantly surprised to notice an improvement after the second day. She is now like a different woman. The nervousness and depression are all gone and she eats and sleeps better than she has for years. It seems wonderful to note such a change in her. I believe 'Tona Vita' is worth its weight in gold.

If you are debilitated and run down, above all things try "Tona Vita." You will never regret it as it will build you up like magic. It is the finest preparation now on the market.

LOWE BROS. PAINT—MARTIN

**Case Decided By
Supreme Court**

Nearly four years ago Wm. Worthington of this city, as administrator of the Joseph Worthington estate, brought suit against the administrator of the Martin Redkey estate, for the sum of \$6,200 which Mr. Worthington had placed in the hands of the late Martin Redkey, to be distributed* to various institutions if not recalled by him.

The case was filed in the Highland county court and upon hearing before Judge Newby, the case was decided in favor of the plaintiff. The case was then carried to the Circuit court where the decision of the Common Pleas was reversed.

Again the case was carried up, and for some time it has been pending in the Ohio Supreme court, and on Tuesday of this week, it was decided in favor of Mr. Worthington, the Circuit court being reversed.

Post & Reid and John Logan represented the plaintiff, and the suit was based on the plea that the gift was not valid until delivered to the institutions.

LOWE BROS. PAINT—MARTIN.

Case Decided By Supreme Court

Nearly four years ago Wm. Worthington of this city, as administrator of the Joseph Worthington estate, brought suit against the administrator of the Martin Redkey estate, for the sum of \$6,200 which Mr. Worthington had placed in the hands of the late Martin Redkey, to be distributed to various institutions if not recalled by him.

The case was filed in the Highland county court and upon hearing before Judge Newby, the case was decided in favor of the plaintiff. The case was then carried to the Circuit court where the decision of the Common Pleas was reversed.

Again the case was carried up, and for some time it has been pending in the Ohio Supreme court, and on Tuesday of this week, [redacted] was decided in favor of Mr. Worthington.

Post & Reid and John Logan represented the plaintiff, and the suit was based on the plea that the gift was not valid until delivered to the institutions.

Saloon Opens In Charleston

D. W. Daugherty opened a saloon in South Charleston Monday, the first to be opened since the county voted wet. The saloon is near the D. T. & L. railroad and the proprietor is one of the men who ran a saloon in the village until three years ago.

The drys have commenced the circulation of a petition calling for an election and the town is expected to go dry again.

Case Postponed

Upon application of the attorney for the defendant the hearing of George Robinson, charged with bootlegging, was postponed from Tuesday night until Wednesday night at seven o'clock.

Suicides While Visiting Father.	
Barnesville, O., May 1.—The lifeless body of Edwin Hunt, 48, was found hanging from a wire in the fair grounds, after being missed for one week. He came from Spokane, Wash., to visit his father, John T. Hunt, last Tuesday, and disappeared the following day.	

Girl Ends Own Life.	
Canton, O., May 1.—After writing a note naming six of her girl friends as pallbearers, Eva Teeple, 17, daughter of Mr. and Mrs. John Teeple, East Sparta, O., shot and killed herself with a shotgun. For several months, it is said, the girl had been despondent over a love affair.	

Prisons Jump Newark Jail.	
Newark, O., May 1.—Six of the 14 prisoners in the Licking county jail escaped just after being served their breakfast by jailor George Taylor. Eight prisoners refused to go, one of them being Dick Holler, indicted for complicity in the Newark lynching. He walked out after the delivery to Sheriff Staab's office and gave the alarm.	

Mine Inspector Reports.	
Columbus, O., May 1.—Mine accidents are on the decrease in Ohio according to the annual report of State Mine Inspector Harrison. In 1910 there were 161 fatal accidents, while last year there were only 109. During the year there were 26,342,039 tons of coal mined in the state, or a decrease of 4,082,912 over 1910. The inspector and his deputies made 2,804 visits in 1911.	

Celebration Proves Fatal.	
Marion, O., May 1.—M. E. Drake, who was injured in a barroom fight by Harry Hedges, died. It developed that Drake was celebrating his forty-seventh birthday anniversary. He had confided to his wife in the morning that he knew he would never live to celebrate another.	

Will Buy Old Home.	
Wooster, O., May 1.—James V. Manges of Cleveland, one of the recent recipients of Carnegie hero medals, will buy the home of his boyhood with the \$1,000 cash he is to receive. The house is situated near the hamlet of Madisonburg. Manges opposed the sale of the home when his parents died, and an aunt says that he declared then, "I'll buy it back some day."

FUNERAL OF JAMES COYNER

The remains of James Coyner arrived over the C. & M. V. Wednesday morning at 9:45 from San Francisco, Cal., and were taken to Elmer Klever's undertaking parlor. Funeral services will be held at Second Baptist church Thursday morning at 10 o'clock. Burial in Washington cemetery.

Pennsylvania Agent E. S. Peelle Promoted

Mr. E. S. Peelle, who for the past seven years has efficiently held the position of agent of the Pennsylvania railroad in this city, has been promoted to a similar position at Piqua, Ohio, and will leave within the next few days for his new position, moving his family to that city.

Mr. Peelle will probably be succeeded by Mr. G. H. Linton, agent for the Pennsylvania at Wilmington, and Mr. and Mrs. Linton are expecting to move here at once. Mr. Linton has held the position at Wilmington for several years and is a competent man and deserving of the promotion to the Washington station.

Mr. Peelle is a native of Wilmington, came to this city from Sabina, where he was with the Pennsylvania for several years. He has been engaged in the railroad business for eighteen years, working his way up until he is recognized as one of the most capable agents on the division. During their seven years in Washington Mr. and Mrs. Peelle have made a great many friends who will deeply regret to see them leave the city, but are pleased with the recognition given Mr. Peelle in the promotion to the Piqua office. Piqua has some 14,000 inhabitants.

Mr. Peelle and family will probably leave for Piqua sometime this week.

morning. The senator said following adjournment that he would take advantage of the recess and go to New York to investigate the statement made before the committee that the White Star line had authoritative news of sinking of the Titanic by 8 o'clock Monday morning, nearly 12 hours before they announced the loss of the liner.

Edward J. Dunn, a wallpaper importer of Beechhurst, L. I., testified that he had information that such a message was handled by the Western Union Telegraph company early Monday morning. Dunn refused to divulge the name of his informant, saying that to do so would deprive an operator, from which this information came, of his job. He was kept in custody by a sergeant-at-arms of the senate all day, but persisted in his refusal to give up the name of his informant. He is still under restraint. Effort was made by Senator Smith to obtain the alleged message from the Western Union Telegraph company, but was met by the statement that the messages delivered to the White Star line that Monday morning had been lost. It is said Senator Smith will take the matter up with the telegraph company officials today.

NOTICE TO BIDDERS

Sealed bids will be received by the Director of Public Service of the City of Washington, State of Ohio, at the office of said director until twelve o'clock noon, Thursday, May 9th, 1912, for furnishing the necessary labor and materials for improving Main street from Elm street to a point 122 feet south of the south line of Chestnut street by constructing cement sidewalks, curbing and gutters on both sides of the street and by grading and macadamizing the roadway according to plans and specifications on file in said office. Each bid must contain the full name of every person or company interested in the same, and be accompanied by a bond in the sum of \$200.00 to the satisfaction of the director, or a certified check on some solvent bank, as a guarantee that if the bid is accepted, a contract will be entered into and its performance properly secured. Should any bid be rejected such check will be forthwith returned to the bidder, and should any bid be accepted such check will be returned upon the proper execution and securing of the contract.

Bidders are required to use the printed forms, which will be furnished on application.

The right is reserved to reject any and all bids.

Baby Girl Weighs Only One Pound

A well developed and healthy baby girl, who tips the scales at one pound, was born last week to Mr. and Mrs. A. J. Smith, well known colored people, who reside near Wilberforce. The child, who weighs about as much as an ear of corn or a good sized potato, is doing well and Dr. Hawkins, the attending physician, says it will live.—*Negro Gazette*.

Meets Death Under Train

Carey Best, 25, of Chillicothe, was crushed to death under an N. & W. freight train at Circleville Monday night about 11 o'clock.

The young man had hopped a train for Circleville and in trying to get off fell under the wheels and both arms and legs were mangled, death occurring a short time later in the hospital at Circleville.

No More Constipation ...WHEE!

It's Me for Olive Tablets!

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and Calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, sooth-ing laxative.

No griping is the "keynote" of these little sugar-coated tablets.

They cause the bowels and liver to act normal. They never force them to unnatural action.

It is easy to compel bowel and liver activity for a time with calomel and nasty, sickening, griping castor oil, but the after effects are dangerous, and the real cause of the trouble is often not even touched.

Dr. Edwards' Olive Tablets are so easy to take that children do not regard them as "medicine" at all.

If you have a "dark brown mouth" now and then—a bad breath—a dull-tired feeling—sick headache—torpid liver and constipated, you'll find quick, sure and only pleasant results from one or two little Olive Tablets at bedtime. They're perfectly harmless.

Thousands take one every night just to keep right. Try them.

"Every little Olive Tablet has a movement all its own."

Stone Instruments Used for Operations

There is no doubt that some rough form of surgery must have existed from very ancient times, but it is strange to find that so complex and delicate an operation as trepanning is one of the oldest.

So far as actual records go Hippocrates gives us the earliest account he wrote treatises of fractures, dislocations and wounds of the head, in which he described the method of procedure to be followed in the case of a fractured skull. His direction was to cut away a piece of bone so that the pressure on the brain might be relieved.

There are also records about this time and later of a file being used for this purpose, which at a time when anesthetics were undreamed of must have been, to say the least, painful.

According to Dr. T. Rice Holmes the operation of removing pieces of bone was performed long before his time. The effects on the skull are easily seen after death and are visible so long as the bones are preserved.

From inspection of certain skulls of the later stone age in ancient Britain, Dr. Holmes has come to the conclusion that some of these had undergone the operation, which must have been performed with a stone implement.

Thomas McKinney, 215 First St., Piqua, a veteran of the Civil War, was laid up with backache, rheumatic pains across the hips, spells of dizziness, and other grave symptoms of kidney disorder. He was nervous, in constant misery, and medicine failed to help him. He finally took Foley-Kidney® Pills and says: "They cured me in one month of all my trouble and I again feel well in every respect." Blackmer & Tanquary.

The Kind You Have Always Bought

In Use For Over 30 Years

THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

Most Savage Tribe on Earth

If you are looking for a real wild Indian, seek the Jibaro. Perhaps you never heard of him, but you should, for he's the wildest, most savage and uncultured type of redskin who thrives today. War and the Jibaro are synonymous. No other Indian tribe in history has so determinedly and successfully resisted efforts to conquer and Christianize it as this tribe of the Jibaro.

Today, the Jibaro, 15,000 strong, rule supreme over the vast forest regions of Ecuador, between the Santiago and Patasco rivers and southward to Amazon. It is one if not the most flourishing, picturesque and primitive of all surviving tribes of Indians. Once, when partly subjected to Spanish rule, they were goaded to rebellion by enforced labor in the mines of their taskmasters, and marched 20,000 strong into the stronghold of their enemy and in one night completely annihilated the 12,000 inhabitants. As an example of their savagery they killed the governor by pouring molten gold down his throat in order that he might have his fill of gold.

Like tactics are still pursued and the Jibaro is little molested. War is their normal condition, their favorite weapons being the lance, the javelin and the blow-gum with poisoned arrows, which have served them with deadly efficiency.

A traveler recently returned from their territory, told of walking miles through a forest and seeing a veritable canopy of human heads, blackened from burns yet wonderfully life-like. Some of these heads, he learned were almost a century old, practically fossilized by a unique method of preservation known only to the Jibaro. These heads according to the Catholic Encyclopedia are those taken from the bodies of their enemies and thus preserved as emblems of war by an ingenious method of smoking process which practically preserves the features.

The Jibaros have ancient and peculiar customs which are observed with the strictest conformity.

Thousands of small deserted shel-

ters which once served as houses are found everywhere in the forests. These are tombs for the dead. It is the custom among the Indians to make the spot where one of their number dies his final resting place. If a Jibaro dies in the open air the tree nearest the spot is hollowed and the body entombed therein.

The houses are from 59 to 89 feet long, with a door at each end, one exclusively for men and the other for women. Disregard of this rule is punishable by death. Parrots, dogs, and monkeys are idolized as household gods. The Jibaro are never permitted to use salt, but have an inherent love for a certain saltaceous clay.

The Jibaro is robust, of rotund body, exceedingly handsome as a race although never tall. They live in luxury, are very immoral and polygamy is general. There is no tribal organization or civil authority, the only bond between families being their habitual attendance at common festivals. Witchcraft flourishes and every death is attributed to this cause. Little is known of their religious or mythological beliefs. There are about 1,400 Jibaros who are Christians, but few of these are of the full blooded type and are scorned by the majority of the tribe. Missionaries say the Jibaros will never break from ancient customs.
